THE ROOTS of GROUND GOLF
are in TOMARI.

The birthplace series released in Yurihama Town,
where ground golf was born.

Yurihama-cho
(formerly Tomari-son)

Ground golf mecca “Shiokaze no Oka Tomari” - Hill of the Sea Breeze -

Ground golf was established in 1982 in Yurihama-cho (formerly Tomari-son) as part of a lifelong sports promotion program. Since the rules are simple and no particularly advanced skills are required, it has spread as a sport that can be enjoyed by both children and adults, and has developed into a national pastime with over 3 million enthusiasts in Japan. Built on a small hill overlooking the Sea of Japan, “Shiokaze no Oka Tomari” is considered the mecca for ground golf, and in recent years it has hosted 200 tournaments annually, including international and birthplace tournaments.

To further expand the circle of health and friendship from its birthplace “Yurihama-cho,” we have prepared a lineup of GG equipment.

THE ROOTS of GROUND GOLF are in TOMARI.

ROOTS *in* HERE

The ROOTS in HERE series incorporates the beauty of nature such as the tides, the wind, and the hilly terrain into its design based on the motif of “Shiokaze no Oka Tomari.” The club head is designed to evoke the gentle topography of a hilly terrain, and the cavity shape is reminiscent of a terraced course, expressing the strength of nature, while the shaft and other design features evoke the flow of the tides and wind, expressing the suppleness of nature.

This series will inspire a new sense of excitement in your play while you experience the natural surroundings of the birthplace of ground golf.

PRODUCT LINEUP

Release of a new series in collaboration with the birthplace!

Club

27,500 yen (tax included)
Color: Blue/Red Size: 80, 82, 84, 88, 100
